A Key Pronouncement.....

- "All of Nature – mountains, rivers, trees, crystals, metals, all living beings, even human beings – is nothing other than numbers incarnated. If you study this question in depth, you will find that nothing exists apart from numbers. Everything is number; Nature and the whole Universe are built upon numbers, which form an indestructible, geometric framework similar to the skeleton. So mathematics is abstract only at the level of principles; in the created world it takes on flesh and bone. For the moment, mathematicians work without knowing how the results of their calculations correspond to reality. One day, they will discover that all the physical, psychic and cosmic processes are there, all explained by numbers and their different combinations."*

- 1 2 3 4 5 6 7 8
- A B C D E U O F
- I K G M H V Z P
- J R L T N W
- Q S X

- The methodology for creating „cosmic numbers“ out of a name and birth date is exemplified as follows :

-
-
- Summed by component
-
- = for the single cosmic number: $8+6+9 = 23 = „5“$
- And for the compound cosmic number: $35+6+9 = 50$ = by convention -in order to accommodate also the longer names- a „32“
- Thus Pythagoras of Samos is by his name a „5/32“, called „Communication“.
- Pythagoras“ birth date is given as „around“ 569 B.C. Let’s make it happen on 4 March of that year to establish his cosmic birth number: $4 + 3 + 5 + 6 + 9 = 27 = 9/27$ Which, combined with his name numbers makes Pythagoras another 5/32 and“communicate“ he did!!!

A photograph of a group of indigenous children, likely from the Hamar region of Ethiopia, sitting in a large circle on a grassy field. The children are mostly shirtless and wearing traditional beaded skirts. They are all looking towards the center of the circle, where their legs are extended, creating a dense ring of legs. The scene is set outdoors with tall grass in the background. The text "ONENESS is so simple" is overlaid in red, bold, sans-serif font across the middle of the image.

SPINOZA is a **5/32**, the Mercury vibration, representing
„Reason“ and **Communication**

Spinoza's core parameters for the Universe are:

"SUBSTANCE", a **5/32**; **"ATTRIBUTES"**, a **5/32** and
"MODES", a **5/23**. The number **32** was bestowed with the
name „**Communication**“ and the **23** with the powerful
name „**The Royal Star of the Lion**“.

The combination of these three "quantities" make,
following the Kabbalah method of numerology, a **6/33**,
being the same as Spinoza's full name **BARUCH DE**
SPINOZA. Furthermore, Spinoza's core statements:
"NATURING NATURE" and „**NATURED NATURE**“ are
both **5/32's** and so are his favoured expressions

"LOVE OF GOD" and **"LOVE OF NATURE"**,

More pronouncements of the past

The Universe is built on a plan the profound symmetry of which is somehow present in the inner structure of our intellect

Paul Valery, 9/27

All theology.....is a massive inconsistency derived from ignorance.....The Gods exist because Nature has imprinted a conception of them on the minds of men

Cicero, 3/21

„IF HUMANKIND WANTS TO SURVIVE, IT HAS TO ADOPT A RADICALLY DIFFERENT WAY OF THINKING““

Albert Einstein, 1/19

Figures can be and are (virtually
always and so metaphoric for our
„troubled times“)manipulated

whereas

Numbers have and maintain their eternal
unchangeable meaning

Johan Joachim Winckelmann (1717-1768)

5/32

“We can only become truly great,
If, possibly inimitably,
We imitate The Ancients”
