**Dear Mr Meyer**

C&C has a clear moral basis. But it addresses none of the fundamental issues I discuss in my book *'An Appeal to Reason: A Cool Look at Global Warming'*.

Dear Lord Lawson

**UN Climate Policy**

Your insistence that an effective policy response to climate change must be global makes much sense.

Some colleagues of yours at the Science and Public Policy Institute in the US have declared that UN Climate Policy is contraction and convergence: - <http://www.gci.org.uk/news.html>

Do you agree that C&C is an effective global policy response to climate change?

With kind regards
