

The Meeting of the PERFECT FIFTH [$8/12$ or 0.666]
the DIMINISHED FIFTH [$7/12$ or 0.583]
& the WELL-TEMPERED FIFTH [$7.416407865/12$ or 0.618]
The GOLDEN SECTION - is the 'irrational fraction' $0.618033988749895 \dots$

Within the 'Perfect' to the 'Well-Tempered' Order,
what Moves are Golden Section 'Fractals' of What Doesn't.

For my Friend Jelle 27 04 2013
